

This proforma will be used by NOCN to record its policy decisions regarding learners registered on NOCN Vocational and Technical Qualifications, who have had their learning disrupted by the COVID-19 pandemic. This proforma has been created, by request of the Regulator, and follows the government direction regarding the disruption to Vocational, Technical and Other General Qualifications for Summer 2020. This was communicated to Awarding Organisations on the 9<sup>th</sup> April 2020:

https://www.gov.uk/government/news/awarding-vocational-and-technical-qualifications-this-summer.

The purpose of this document is to record NOCN's decision making regarding Condition VTQCov8.1(b). This document will be used as a working document and will be amended with additional information if decisions require amending or if further direction or guidance is issued by the Regulators. This document will be provided to the Qualification Regulators upon their request.

	Overview	
Qualification(s) in	This proforma relates to all general NOCN and vocationally-related qualifications, which have been categorised by NOCN as requiring a 'adaption' mitigation.	
scope	The full list of respective qualifications is listed in Appendix A.	
Mitigation	The mitigation for all qualifications listed in Appendix A is 'adaption'.	
	The decision of whether to adapt an assessment or issue a calculated result has been made by NOCN per qualification and has taken into account the content of the qualification, how the qualification is assessed, whether the qualification leads to employment or higher education and ensuring that standards can be maintained.	
Rationale for the type of mitigation	In line with the direction provided by Ofqual, NOCN will work with its approved centres to issue calculated results for the majority of its qualifications. This would not be appropriate for all qualifications, specifically where a qualification is designed to signal occupational or professional competence. Therefore, the qualifications selected for adaptions have been assigned this mitigation if:	
	<ul> <li>The qualification is license to practice.</li> <li>The achievement of the qualification does signal occupational competence.</li> <li>There are, or may be, health and safety risks in issuing a calculated result.</li> </ul>	

	<ul> <li>Achievement of the qualification may lead to a learner gaining technical employment.</li> <li>Due regard for Sector bodies and assessment strategies.</li> </ul>
	The use of adaptation has been used to maximise the number of learners that receive their results this spring and summer, to support progression where qualifications are a critical component of occupational or professional competence.
	In line with the Addendum to the Consolidated Assessment Strategy (COVID-19) issued by CITB, NOCN recognises that plant qualifications have a requirement specifically listed within the Consolidated Assessment Strategy and that these requirements have not changed.
Rationale for mitigation regarding NOCN Plant qualifications	<ul> <li>Centres are still required to ensure that the assessment includes all the following:</li> <li>observation of performance by the assessor or assessors</li> <li>witness testimony or testimonies by an expert witness/witnesses</li> <li>professional discussion.</li> </ul>
Operating outside of this process	NOCN expects all centres to act upon this policy and remain within it. If, however, there is good reason, there is no need to calculate results or the learner shows a strong choice to treat their qualification in a different manner, then NOCN will accept 'Normal' qualification delivery or a delay to achievement but this decision needs to be checked with NOCN via <a href="mailto:assurance@nocn.org.uk">assurance@nocn.org.uk</a> and documentation of the decision retained.

	Overview
Provide detail of components to be adapted	Adaptation would be applied in the case where delivery of assessment relies upon direct observation as the best form of evidence – the adaptation would be to use video link. Assessors/centres would use video recording of practical assessments etc taking place, these video recordings would also be accompanied by any document needed to ensure validity and robustness.
adaptod	Adaptation would be applied for any online testing using online proctoring so that students can continue to sit their assessment test in a secure, invigilated environment.

	See above for detail on assessment methods used.
Rationale	In all cases EQAs should be contacted by Centres to discuss the adaptations that they have used, they will also carry out remote sampling until the visits are able to resume, then a quality check will be carried out. Customer Service will not be processing any achievements to certification until the EQA has sampled supporting document or reports being issued by the centre.  If the Centre has not contacted their EQA, their achievements will not be processed until the EQA has sampled the evidenced submitted for achievement.
Sector/professional body – due regard?	We have been in contact with different sector and professional bodies for individual sectors and are abiding by any adaptation to consulate assessment strategies. We have followed the guidance of Ofqual and sector/professional bodies to ensure continuity where adaptions to assessment is applied.
Steps taken to minimise risks to validity.	All centres will have notified their EQA to arrange for sample quality checking and verification to take place prior to certification. This will be carried out remotely whilst visits are suspended.
Any potential outstanding risks to validity.	By quality assuring Centre adaptations and providing clear guidance to centres, NOCN does not foresee the validity of its qualifications from being compromised.
AO capability and capacity	A lot of work is required to ensure that the process can occur in the timescales required and that it is completed in a compliant manner. NOCN will review resources at regular intervals to ensure timescales are met and are met to a high standard. We will be taking a risk-based approach to all the quality checking of any adaptation.
Impact on centres and learners	Where possible the use of video recording of observations where direct observation would normally occur. The use of online proctoring for invigilation of online tests where learners have the facilities for this to be used.  This will allow learners and centres to progress onto either then next level, onto higher education or into work.
Minimisation of bias	The Quality Assurance of all of our qualifications will ensure against the minimum of bias where possible.

Timeline for mitigation	<ul> <li>13<sup>th</sup> May - NOCN publishes policy statement and guidance to centres regarding the summer 2020 assessment series</li> <li>By 27<sup>th</sup> May - Centre ensures all affected learners are registered with NOCN.</li> <li>By 5<sup>th</sup> June - Centre develops their own policies for determining CAGs.</li> <li>8<sup>th</sup> June - Spreadsheet template for submission of CAGs is made available to centres.</li> <li>From 8<sup>th</sup> June to 31<sup>st</sup> July - Centre determined CAGs, records this on the NOCN spreadsheet template and submits to NOCN via Quartzweb.</li> <li>6<sup>th</sup> July to 13<sup>th</sup> August - NOCN quality assurers CAGs. NOCN informs Centre of decision following completion of activities.</li> <li>By 12<sup>th</sup> August - Centre submits claims using calculated grades issued by NOCN for Level 3 qualifications.</li> <li>By 19<sup>th</sup> August - Centre submits claims using calculated grades issued by NOCN for Entry Level to Level 2 qualifications.</li> </ul>
	From 13 <sup>th</sup> August – NOCN issues any due certificates to learners using its normal procedure.  From 13 <sup>th</sup> August – NOCN issues any due certificates to learners using its normal procedure.
Outline key risks identified and the mitigations	Engagement with Centres  Due to the current lockdown in the United Kingdom, we could face non-engagement from centres who are closed, which may lead to learners not being certificated, or adaptations being carried out without quality assurance activities taking place or NOCN seeing sight of them. NOCN will actively communicate with centres through bulletins, updates on our website and email and telephone communication where possible. NOCN will keep a record of all centres who have engaged with the process and will inform the Regulator where it believes learners may be in the system or if an Adverse Effect has occurred to inform next steps.
	Access to Technology Adaptations rely on Centre and learner access to technology, such as for video observations or for remote invigilation. We have cause to believe that this may not be a big issue from feedback we have received from centres, however it may still be a risk. NOCN will work with centres on an individual basis where concerns are raised regarding access to technology and NOCN will work with the Centre to determine flexible approaches that keep true to qualification and assessment requirements.

	Certificate Recalls Following Ease of Lockdown  There is a risk that after lockdown eases and NOCN resumes its normal quality assurance activities, there is a risk that adaptations may have not covered full qualification outcomes, which may not have been picked up by quality assurance activities. NOCN will take all preventative measures to decrease the likelihood of this occurrence. If it does occur, NOCN will take all reasonable steps to prevent the occurrence of an Adverse Effect and only as a last resort will NOCN revoke a certificate. If this is the case, NOCN will inform the Regulators.
	Appeals Complying with the direction provided by the Secretary of State, NOCN will allow learners to have a right of appeal regarding the process for grade or outcome estimation. Learners will not be able to appeal their qualification final grade or outcome, but will be able to appeal regarding the process and where they believe their registered Centre, or NOCN as their Awarding Organisation, has not followed the correct process in determining their result. NOCN will ensure that the availability of an appeal regarding the process is made clear to both learners and centres by ensuring that an appeal statement is published and shared on our official website. The appeal statement will bolt-on to NOCN's current appeal policy and the procedure for which appeals will be heard and addressed will follow a similar process.
Other information	Policy on No Response  A pragmatic approach will be taken regarding centres who are not able to complete the grade calculation process due to the COVID-19 disruption. NOCN supports an open dialogue with its centres and through external quality assurers will proactively communicate with centres to determine the practicability of the Centre adapting its assessment delivery approach.  Where a Centre refuses to work with NOCN to adapt qualifications in a compliant manner, or where there are
	substantial cause for concern regarding a Centre's ability to adapt assessment delivery, NOCN will promptly report this to the Regulator.
Expected date(s) of results issue	By 12 <sup>th</sup> August 2020 for Level 3 qualifications. By 19 <sup>th</sup> August 2020 for Entry Level to Level 2 qualifications.
